About IMRIS

IMRIS (TSX: IM) is a global leader in providing fully integrated, advanced imaging solutions that incorporate multiple imaging modalities including magnetic resonance and fluoroscopy to deliver timely information to clinicians during surgical or interventional procedures. The Company's systems utilize patented technology that allows a high field MR scanner to be moved in to the operating room on demand, providing imaging during the surgical or interventional procedure without compromising patient safety. The Company's flagship product, IMRISneuro, has been validated by leading neurosurgeons and is in use at neuroscience centers around the world.
